Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM  
THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. Claim 14, last line the semi-colon should be changed to a period.
2. Re the instant claims, the claims do not recite any structure of the "slide out" art but rather are directed to the motor brake art.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The use of "bracket" in claim 1, line 3 is unclear. Note in dependent claims such as claim 6 the bracket is referred to as cylindrical in shape, which is confusing as to what applicant intends the term "bracket" to cover.

Re claim 7 the claim appears to be incomplete lacking the functional and structural relationship between the elements of the "brake", "external coupling", "receptacle" and "motor".

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 3683

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Simons(2949172).

See Figures 1-11. Note alignment members 27.

7. Claims 14-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Hansen(3045782) or Aude et al(2966240) or Day(3688877).

Releasing a spring biased motor brake manually and then maintaining the brake disengaged until the artisan is able to repair the brake is conventional and desirable in the brake art.

8. Claims 14-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Maurice (6675940) or under 35 U.S.C. 102(b) as being anticipated by Kelley et al(4938321) or 35 U.S.C. 102(b) as being anticipated by Maurice et al(5915507) or Riepl(5796192).

9. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Lindner et al(4798269).

Note removable housing 30.

10. Claims 7-13 are rejected under 35 U.S.C. 102(b) as being anticipated by McCarthy(3605958).
